

# ROMAN KHOMETS

## FRONT-END DEVELOPER (REACT)

### PERSONAL SUMMARY

Hi, I'm a quality focused frontend developer with experience in creating web apps using React/Redux/Rest API stack. Pay extreme attention to detail and have a passion for delivering a great user experience, provide strong critical analysis and problem solving. And it's not just a boilerplate, I really like the things I do and want to be proud of them. An eternal student, live to learn and it's never enough!
